Advocating for Women Veterans

The NASWVC is dedicated to ensuring that women veterans have equitable access to healthcare and services, possess a comprehensive understanding of the benefits accrued from their military service, and are supported by an advocate to represent their interests.

Our Mission

NASWVC is dedicated to advocating for women veterans through strategic partnerships, comprehensive training, and proactive information exchange. Our mission is to identify barriers that hinder the successful transition of women veterans and military women to the civilian community. We follow a rigorous approach to recommending solutions through legislative, programmatic, and outreach activities.

Our Vision

Women Veterans confidently access equitable healthcare services, understand military benefits and have committed representation.

MORE ABOUT NASWVC

In 2017 VA's Center for Women Veterans and the National Association of State Women Veterans Coordinators (NASWVC) became partners in serving women Veterans. This partnership continues today!

The Center for Women Veterans and NASWVC share a common goal in serving our nation's women Veterans, both organizations are committed to facilitating the delivery of timely, quality benefits for women Veterans.

This partnership and collaboration have advanced and improved the quality of life for women Veterans by working to enhance accessibility to services, the evaluation of existing programs and by gaining information from the individuals that directly serve women Veterans.

The National Association of State Women Veterans Coordinators works to represent all 50 states, the District of Columbia, American Samoa, Guam, Northern Mariana Islands, Puerto Rico, and the Virgin Islands, as well as several associate members representing

Veteran organizations or agencies nationally. If you do not see your state listed below, please contact our Leadership team. For more information about the NASWVC or to locate your state's coordinator, please visit www.NASWVC.us
